

1.5 kW solar powered water pump

The Photon(TM) SolarPAK solar-powered pump is the new modular, compact and more flexible system solution to meet your solar pumping requirements.

The 1.5kW three-phase solar pumping inverter is ideal for small- and medium ...

Using Franklin quality components, our technical expertise in groundwater pumping, and innovative thinking based on global market inputs, we have developed a rugged, high-output solar-powered ...

Quality and energy efficiency are our hallmarks that instills pride in us as a pioneer in manufacture of many types of solar water pumps. Our pumps are not only energy efficient, but also ...

The 1.5kW three-phase solar pumping inverter is ideal for small- and medium-scale irrigation and water supply needs. The solar vfd features advanced MPPT technology (250V-400V range), a high power ...

Maximize your water pumping efficiency with the 1.5kw Solar Pump Inverter AC Three Phase 220V - GLP1K5L designed for optimum performance. Discover more!

Our rugged DC 1.5 Solar Water Pump is an environmentally friendly and cost effective way to pump water. Includes : Solar DC pump, controller, 50ft standard cable, safety rope, 1/2" poly pipe, wire ...

The definitive guide to solar water pumps. We cover how they work, how to size the right panels and pump for your project, costs, and installation. Use our interactive calculator to design ...

CDI-SPD series photovoltaic water pump driver is a dedicated inverter for photovoltaic power generation to drive AC water pumps. It inverts the direct current generated by solar cell components into ...

Want to pump water off-grid without paying electricity bills? Discover the top solar powered water pump systems, installation tips, and real-life user success stories.

The Sunshine 1500W brushless solar water pump is a deep-lift, solar-powered solution designed for high-head pumping in off-grid areas. Equipped with a 2HP brushless DC motor and wide input ...

1 5 kW solar powered water pump
