

2MW Data Center Cabinet for 5G Microstations Clearance Price

What is included in a colocation data center?

Mesh walls, demarcation rack with patch panels, locking door, ladder rack and fiber raceway up to first cabinet position or up to 10 feet. Security accessories include dedicated cameras, biometric hand scanners and more. Built-to-order mesh cabinets and colocation data center cages with space assigned based on power allocations.

What is a micro data center (MDC)?

A micro data center (MDC) is a low-scale highly modular data center that includes all the compute, storage, networking, power, cooling, and other infrastructure in one place that required for a given workload.

What sizes are available for a data center rack?

The sizes are available in 24U, 42U and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack. The fan tray is powered with a standard 110 power cable that may be plugged into a power strip or PDU.

Are custom cabinet configurations available in IBX® data centers?

Custom cabinet configurations available in International Business Exchange (TM) (IBX®) data centers globally. Fully enclosed, secured, and interconnected data center environments for custom, multi-cabinet deployments. Work with our industry-leading engineering experts to design, build, and optimize your critical data center environment.
