

80kWh Power Cabinet Turnkey Project

Explore the eSpire Mini: a turnkey energy storage solution for microgrid, backup, and off-grid applications in residential or C& I projects.

Available in 64 kWh, 80 kWh, and 96 kWh versions, this system combines performance, safety, and easy installation for your photovoltaic and energy management projects.

Versatile configuration: use 30kW/80kWh as a basic build block to build up a larger system. Application: Commercial and industrial facility power back up such as office building, warehouse, company data ...

With 80kWh of usable capacity and wide PV/DC input support, it's ideal for commercial sites looking to store solar energy, shift peak loads, or provide backup protection in harsh outdoor environments.

Professional provider of containerized energy storage systems, microgrid solutions, distributed storage cabinets, liquid-cooled energy storage, and industrial energy storage solutions across Africa.

The 80kVA 128-209kWh Air-Cooled Commercial ESS Cabinet is a cost-effective, scalable, and reliable all-in-one energy storage system integrating PCS, BMS, EMS, LFP battery packs, fire protection, ...

Ideal for home, commercial, and utility backup power, this modern system ...

Ideal for home, commercial, and utility backup power, this modern system combines high energy and power density with a long lifespan. Its modular design allows for easy installation and expansion, ...

Browse our BESS cabinet model pages (kW/kWh options) for C& I PV + storage, peak shaving, backup power and microgrids.

The core components of these systems include PCS, lithium-ion batteries and energy management systems. These "turnkey" ESS solutions can be designed to meet the demanding requirements for ...

While our all-in-one C& I cabinets are designed for rapid deployment, factors like local grid permitting or necessary electrical infrastructure upgrades can influence the schedule.
