

In Vilvoorde, on the outskirts of Brussels, Belgium, mainland Europe's largest battery energy storage system has reached a major milestone.

ENGIE has officially completed both phases of its 200 MW battery energy storage system (BESS) at Vilvoorde, Belgium. The 800 MWh installation, composed of 320 lithium-ion battery ...

With our battery projects, we are putting this strategy into practice, contributing to a sustainable economy. By Q4 2027, Engie will operate 380 MW / 1.5 GWh of battery storage capacity ...

Discover how industrial batteries and smart EMS systems drive energy transition in Belgium: cut costs, earn flexibility revenues, and meet EU targets.

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a ...

An example of such an investment is the newly commissioned Vilvoorde Battery Energy Storage System in Belgium, currently the largest of its kind in continental Europe. The history of the ...

Engie has officially launched its 200 MW / 800 MWh battery energy storage system (BESS) in Vilvoorde, Belgium, which is now fully operational. This landmark facility is the largest of its ...

Green Turtle battery park, among the largest in continental Europe, will feed 700 MW of renewable energy back to the grid. Tractebel is Owner's Engineer on this landmark project.

Kallo, 14 May 2025 - NHOA Energy, the global provider of utility-scale energy storage systems, today celebrated with ENGIE the groundbreaking of a 400 MWh battery energy storage system (BESS) in ...

The second and final phase of this 200MW/800MWh battery energy storage project is set to connect to the grid by the end of 2025. The two-phase development is set to enhance grid stability and provide ...

Belgian battery energy storage
