

# Bess battery storage in China in Hungary

MET Group has put a 40M/80MWh BESS in Hungary into commercial operation, deployed using technology from Huawei.

Met Group Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

The company already deployed a 4MW/8MWh BESS there using Tesla Megapacks in 2022, but for the larger project opted to use China-based electronics giant Huawei. Although not the most regular ...

With this latest BESS plant, which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal ...

MET Group put into operation a battery electricity storage plant with a total nominal power output of 40 MW and a storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series ...

The current storage capacity of all BESS units on site would be sufficient to supply the entire decorative and public lighting needs of Budapest for 4 hours. The supplier of the equipment is ...

MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW and storage capacity of 80 MWh (2-hour cycle), Hungary's largest operating ...

MET Group installed a battery energy storage system of 40 MW and a two-hour duration at its gas power plant Dunamenti near Budapest. The company said it is the largest BESS in Hungary.

Located at the Dunamenti Power Station in Székesfehérvár, the new facility boasts a capacity of 40 MW with 80 MWh of storage, capable of operating on a two-hour cycle. The project is ...
