

China 1.5 kva hybrid inverter in Vietnam

What is a hybrid solar inverter?

The hybrid solar inverter is a multifunctional device that combines solar energy systems, AC power and battery power to continuously power electrical equipment.

How to maintain an Anern hybrid solar inverter?

The maintenance of Anern hybrid solar inverter does not require much manual intervention. The output power of Anern solar inverter ranges from 1.5 to 6.2KW and can be connected to different power loads. Liquid crystal display battery voltage and output voltage and state parameters, is intelligent configuration.

Are hybrid solar inverters suitable for off-grid system?

As one of the leading hybrid solar inverter suppliers in China, Anern has independently developed a variety of hybrid solar inverters with different performances, which is suitable for off-grid system and on-grid system.

What are hybrid inverters used for?

Anern hybrid inverters can be used with grid-connected solar power generation systems on home roofs. Farms also need a lot of energy to support them. Hybrid inverters are converted to alternating current to keep agricultural activities in order. Focus on providing customers with one-to-one services, and one-stop solar system solutions.
