

At the end of November 2024, Croatia had 25,406 solar power plants on the distribution grid, with a total capacity of 776 MW. The country achieved growth of 60% since the end of 2023 in ...

"Croatia"s National Energy and Climate Plan (NECP) aims to install 2,382 MW of solar capacity by 2030. With around 1,255 MW already in operation, Croatia has reached roughly half of its ...

Croatia crossed the 1 GW milestone in May 2025 and, if current trends persist, could reach 1,290 MW by December 2025. The self-supply sector, particularly households and public ...

Croatia is expected to surpass 1 GW of solar power by 2025, driven by a significant increase in installations and supportive policies. The expansion is part of the country"s broader ...

In May 2023, Acciona Energy announced the construction of the largest solar power plant in Croatia. The new power plant will be spread over three million square meters of rugged state land and will ...

But a group of islanders is now trying to harness the power of the 3,000 hours of sun they enjoy yearly and help the community decarbonize by 2040 with a citizen-owned solar power plant.

Croatia recorded a landmark year for renewable energy in 2025, with solar, wind and renewable thermal power sources taking a leading role in the national electricity system for the first ...

In recent years, Croatia has seen a surge in the development of new solar power plants, with several projects currently under construction or in the planning stages. The country"s abundant ...

On the sun-drenched plains near Benkovac in Zadar County, a transformative project is taking shape. Croatia"s largest solar power plant, SE Korlat, is set to redefine the nation"s energy ...

Hrvatska elektroprivreda (HEP) is the national energy company charged with production, transmission and distribution of electricity. At the end of 2022, the total available power of power plants on the territory of the Republic of Croatia was 4,946.8 MW, of which 1,534.6 MW in thermal power plants, 2,203.4 MW in hydropower plants, 986.9 MW in wind power plants an...

Croatia experienced accelerated growth in renewables over the past year, yet the sector faces critical bottlenecks. By the end of 2024, the country had reached 3.8 GW of installed renewable ...

Croatia solar power system
