

Modular Battery Cabinet for Middle Eastern Virtual Power Plant 15kW

Built for continuous uptime and simplified serviceability, the M90U lets you add power or runtime capacity, replace modules, or implement redundancy without interrupting power to the load, ...

Together, these enclosures deliver 15 kW continuous (20 kW peak), operating silently and reliably even in harsh climates. Designed for telecom, data edge, industrial, and government applications, the ...

Designed for local edge environments and row data centers, the Smart-UPS Modular Ultra provides consistent and reliable connectivity at the most critical moments.

Highly efficient, easy-to-deploy 15kW, 208V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical ...

Smart modular batteries integrated in the UPS cabinet optimize footprint and ensure critical loads have highly predictable runtimes. Start-up service is included to optimize your system's performance, ...

Galaxy VS Ups 15KW 208V offers enhanced power backup for larger-scale installations, supporting extended runtime and smart battery management.

Fully modularized design and hot-swappable modules for easy deployment and maintenance. Redundant aux power and controller design. Dual CAN bus to ensure the inherent reliability on signal ...

MPX 100 CBC cabinet has four slots for PMs and six battery shelves and it can expand vertically from: 15 to 60 kW (with MPX 15 PM) or 25 to 100 kW (with MPX 25 PM);

Its compact and modular design allows for easy integration into your setup. With all necessary cables, connectors, and consumables included, installation is straightforward and hassle-free.

The SolaX X3-IES is a modular energy storage system with a 4~15kW hybrid inverter, BMS, and extensible 10kWh to 30kWh battery modules, designed for residential and small commercial ...
