

Server rack for substations 47U

What is a 47U server rack?

47U server racks and floor standing data cabinets from Server Room Environments are one of the largest available and are designed to provide a complete and secure protective enclosure system for servers, IoT, Edge computing and networking devices. The 47U rack range includes budget and premium models which can be tailored for site applications.

What is a SmartTrack® 47U server rack?

This SmartTrack® 47U server rack is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment. It is 800 millimeters wide to allow more room for cable management and PDU mounting along the sides of the rack, which permits free front-to-rear airflow.

What is a 42U & 47U rack?

These 42U and 47U racks conform to the EIA-310-D industry standard for 19-inch, type A rack cabinets, and has outriggers (stabilizers) allowing for movement of a loaded rack. Features include: Thermal optimization supports high heat and power loads. A perforated front door allows air flow for a fan-free environment.

Do you supply a rack mount UPS & PDU?

We also supply a wide range of rack mount UPS and PDUs to provide you with a complete server rack for your server room or data centre application. If you have a preferred brand of server cabinet we can source a matching cabinet through our extensive supply chain.
