

Slovakian Three-Phase Energy Storage Cabinet for Bridges

Damas Energy, the sole operator of the electric transmission system in Slovakia, plays a crucial role in ensuring stable electricity transmission from various sources, contributing to the power balance ...

Slovakia-based Fuergy has raised EUR16 million from private equity firm Pro Partners Holding to expand its energy storage activity.

To tackle these challenges, Greenbat and Pixii initiated a project, facilitated by MTS spol. s r.o., Pixii's exclusive representatives for Slovakia, Czech Republic, and Hungary, to install and ...

Testing and certification services for battery or energy storage systems used in electric vehicles, energy storage and distribution systems, and other large format applications.

Container energy storage integrated system A fully-integrated BESS container is a modular energy storage unit housed within a robust, weatherproof container.

A three-layer storage strategy combining short-term batteries, mid-term thermal storage, and good old-fashioned water reservoirs. It's like the trifecta of energy reliability.

Modern energy grids face the same challenge. Bratislava's solution combines Tesla-style innovation with good old Slavic practicality. Let's break down their winning formula: A recent case study from ...

ZSE Group, Slovakia based energy company, has 100+ years of experience from the electricity market in Central Europe. The company is one of the most innovative power and gas suppliers in the region.

"The Tigo EI Residential solution is now fully compatible with the Slovak grid, enabling higher self-consumption, increased energy independence, and greater system efficiency.

Introducing the S6-EH3P (75-125)K10-NV-YD-H series hybrid inverter. High voltage, three-phase energy storage for commercial applications. The power range includes 75K, 80K, 100K, and 125K.
