

Slovenia electric vehicle market

How many new cars were registered in Slovenia in 2024?

According to data compiled by the Chamber of Commerce (TZS), a total of 53,018 new passenger cars were registered for the first time in Slovenia during 2024, up from approximately 48,900 units in 2023. Notably, though, roughly 8-10% of these vehicles are thought to have been transit or re-export units and did not actually remain in Slovenia.

Will Chinese automakers enter the Slovenian market in 2025?

While still small in volume, Chinese automakers saw rising interest: MG tripled its deliveries year on year to 719 vehicles, bolstered by the MG4 and MG ZS. Geely (402) and Forthing (185) also appear in registration data. Expect further activity in 2025, as additional Chinese brands (like BYD) plan to enter the Slovenian market.

What happened to electric cars in 2024?

A notable development in 2024 was the 27% drop in newly registered battery electric vehicles (BEVs), which numbered just 3,142 --down from approximately 4,300 the prior year. This decline took the EV market share in passenger cars from around 4.1% down closer to 3%.

Which car brand dominates the electric car market?

Volkswagen led the market, achieving a near- 15% share (7,924 registrations), followed by Renault with 5,910 units and Skoda with 5,538. These three brands consistently jockey for the top spots and collectively account for over a third of all new passenger cars. Declining Electric Sales

Slovenia also offers a purchase grant for BEVs. Ensuring a steady supply of EVs into the country is the best way to ensure an expanding EV infrastructure network.
