

Stand-up battery pack

How much power does a portable battery pack have?

Medium capacity power banks--best for multiple smartphone recharges or tablets--range from 6000mAh to 15000mAh. High-capacity power banks--best for extended travel or computers--range from 16000mAh to 30000mAh and above. Power output determines the overall power of your portable battery pack.

Do you really need a portable battery pack?

And that's when you really need to have a portable battery pack handy. Battery packs,also known as power banks,are not as vitalas they were a decade ago,when batteries were less efficient,but they come in handy when you're traveling,on a camping trip,or simply find yourself on the go all day long.
