

Vietnam Power Cabinet 200kWh Commissioning

Who manages the electricity market in Vietnam?

The Ministry of Industry and Transport is the government body in charge of managing Vietnam's electricity market and supply. It does this through the wholly state-owned power company Electricity Vietnam commonly known as EVN. EVN generates some power, but also buys power from wholesalers, and sells electricity to consumers.

What is the new Electricity Law of the Socialist Republic of Vietnam?

The much-anticipated new Electricity Law of the Socialist Republic of Vietnam was passed on November 30, 2024. The new law aims to enhance the development, management, and operation of the power sector in Vietnam by creating a comprehensive legal framework for a sector that is currently subject to multiple rules and regulations.

How is electricity price regulated in Vietnam?

Electricity prices in Vietnam are regulated by the government and vary by sector, voltage level, time of day (normal, off-peak, peak), and geography. Businesses in industrial parks, service sectors, or using wholesale arrangements may face different pricing structures. Who manages electricity in Vietnam?

How much did power shortages cost Vietnam in 2023?

In 2023, power shortages were estimated to have cost Vietnam's economy an estimated US\$1.4 billion. This was attributed to water shortages for hydropower and a lack of a sufficient supply of coal, however, underinvestment in power infrastructure also played a role.
